## Soil Sampling

Use the picture below and the University of Georgia "Soil Testing Brochure" to answer the following questions.

1. As a homeowner, you are interested in installing a landscape, planting a garden, and maintaining your yard this year. What should you do before you put out any fertilizer?
2. How many soil sample bags do you need to get from the Extension Office? \_\_\_\_\_
3. Which areas of your yard are you going to sample?
4. Draw your sampling locations for each of your yard on the image above. Be sure to use the right sampling pattern and number of sampling points.
5. What are your soil samples going to tell you about your yard, garden, and landscape beds?
