

Agriscience Fair Project Suggestions

Which apple variety is judged best in a taste test by consumers
What level of soluble fertilizer is best for tomato growth?
Which variety of apple contains the most sugar?
Comparison of effectiveness of rooting hormones
Comparison of various brands of potting soils on plant growth
Effects of sunlight intensity and/or duration on height of tomato growth
Effects of water on the strength of concrete
The effects of gray water used for plant irrigation on soil pH
The effect of scarification on germination of okra seeds
The effect of eye appeal of apples in consumer acceptance
The effect distilled water compared to tap water on plant growth
The effect of soil temperature on plant growth
Comparison of consumer acceptance of high style vs. traditional floral designs
The effects of soil compaction on plant growth in greenhouse pots
Comparison of the load-bearing strength of various types of wood
Which method/material preserves cut flowers longest?
Effect of pH on seedling growth
Does size of sand particles affect the strength of concrete?
What is the light transmission rate of various greenhouse glazing materials?
What is the percolation rate of various types of soils?
Which native southern pine produces the strongest lumber?
Which detergent is best as a spreader/sticker in pesticide applications?
The effect of sound on plants
The effect of air pollution on algae, protozoa, fish, insects or mosses and lichens
Comparing types of artificial light on plant growth
Learning and perception in animals
Factors affecting seed germination (e.g. soil temperature, pH)
Factors affecting flowering of plants
Can household compounds (e.g. tea) be used to promote good health in plants
The effects of water impurities on plant growth
The effects of solar activity on plant growth
Tracing solar activity cycles in tree growth rings
Study of population fluctuations in insects
The effects of crowding (with the same or other species) on a certain plant
A study of local rainfall patterns
